

Sergio Cecutta

Partner, SMG Consulting LLC

Sergio Cecutta is a partner and co-founder at SMG Consulting, an Aerospace, Defense and Autotech consulting firm, where he leads the Advanced Air Mobility practice and he oversees strategy, product management, market analysis and business development for a diverse client portfolio of worldwide companies. He has been a part of the Advanced Air Mobility industry since its early days. He has spearheaded multiple research projects and helped clients understand the market and provide tailored products.

As a senior executive at multiple Fortune 200 companies, he has been involved with the development and introduction of products like the Airbus A380, the SmartView Synthetic Vision System and the Gulfstream G500/600. He has also led the strategic due diligence of several M&A deals.

He received an MBA from the W. P. Carey school of business and he holds a Ph.D. in Aerospace Engineering from the University of Rome and the Technion Israel Institute of Technology.

He is a mentor at several schools and organizations, promoting the development of the next generation of Aerospace and Automotive talent.
