

**Biography – Timothy McCartney
Director, Aeronautics Directorate
NASA Glenn Research Center**

Mr. Timothy McCartney is the Director of the Aeronautics Directorate at the National Aeronautics and Space Administration's John H. Glenn Research Center (GRC) in Cleveland, Ohio. In this capacity, he provides executive leadership for all program and project management for Aeronautics research and development at GRC in support of the Agency's Aeronautics Research Mission Directorate.

Throughout his career, Mr. McCartney has worked in numerous capacities supporting aeronautics research at GRC and abroad. Prior to his appointment as Director of Aeronautics, he served as the Acting Deputy Director of Aeronautics at GRC. Previously, as Chief of the Advanced Aircraft Project Office, he supervised a team of project managers and researchers, and was the focal point for unique aeronautics research at GRC. Mr. McCartney also spent a year serving as the liaison to the Air Force Research Laboratory (AFRL) at Wright Patterson Air Force Base. In this capacity, he was responsible for strengthening the GRC AFRL strategic alliance/partnership through collaborative opportunities.
